## Thermon Product Lifecycle Announcement

### TCM2 CONTROLLER & PANEL ENTERS END-OF-LIFE (EOL) PHASE

Thermon announces that the TCM2 controller and panel series is entering the End-of-Life (EOL) phase of the product lifecycle. TCM2 will be phased out according to the milestones below

Refer to Table 1 below for details on key milestones in the EOL process.

**Table 1: Milestone Definitions and Dates**

Milestone	Definition	Date
End-of-Life (EOL) Announcement	The date that the commencement of the TCM2 panel's EOL is publicly announced.	APRIL, 2026
End-of-Sales (Panels):	New TCM2 panels are no longer available for sale from Thermon after this date.	DECEMBER 31, 2026
End-of-Sales (Parts)	TCM2 Panel spare parts are no longer available for sale from Thermon after this date.	DECEMBER 31, 2027
End-of-Maintenance:	Repairing the TCM2 controller modules in existing panels will no longer be supported.	DECEMBER 31, 2028
End-of-Support	Technical support for the product is no longer available	DECEMBER 31, 2035

*\*Please note that some spare parts may become obsolete from suppliers earlier than the indicated date.*

### **Product Transition Information**

Genesis Duo (with both the pipe and wall mount options) will be available as a replacement for a TCM2 panel in hazardous locations and Exo Touch in ordinary location. Genesis Duo is a dual circuit controller certified for hazardous locations while the Exo Touch is a single circuit controller certified for ordinary locations. For your specific use case and configuration, please contact Thermon to assist with selecting the suitable replacement.

Genesis control panels (configurable for up to 72 circuits) are also available for scenarios where consolidation of circuits is desirable. Please contact your local Thermon representative for information regarding the complete range of controls and monitoring solutions.
