

Drum Heaters - D

Application

D130 drum heaters are a portable lightweight heat source designed for a standard 45 gallon drum but versatile enough for use on any similar sized vessel where quick, adjustable heating is required. Other sizes are available as shown.

D130 drum heaters are not for use on pressure tight containers or in hazardous environments. The D130 drum heater is rated at 8.5 W/in² which is approximately 6 to 7 W/in² on the inside drum surface. Ensure the material to be heated is compatible with this watt density rating.

Features

- CSA certified
- Rust resistant aluminized steel
- Low maintenance
- Easy installation
- Thermostat
- Heavy duty cord and plug

Table 23 – Drum Heaters

Drum Capacity	Volts	Watts	Dimensions		Catalog Number
			I.D.	Width	
45 IMP	120	1900	22.5"	5"	D130120
55 US gal	240	3000	(572 mm)		D130240
25 IMP	120	1900	18"	(127 mm)	D140120
30 US gal	240	2500	(572 mm)		D140240
5 IMP	120	1500	11.5"	(292 mm)	D135120
6 US gal	240	1500	(292 mm)		D135240
