

Release Category: [Maintenance](#)

Thermon continues to focus on advancing the efficiency of Heat Trace Asset Management by making continuous improvements to the Controls & Monitoring solutions portfolio. As a part of Thermon's Digitization initiative and our commitment to providing a great experience to our customers, we release new features/fixes on our products on a regular basis.

This release is for the latest version of the **Exo Touch** firmware.

Resolved Issues

- Fixed erroneous current readings while the heater is in OFF state.

Thermon highly recommends all our customers to upgrade to this version for better performance experience. Please work directly with our field services or product management team to facilitate the upgrade.

In case of any issues, please report them using this [link](#) or email to ask.me@thermon.com
