

Condensate Drain Heater

240V SELF REGULATING CABLE

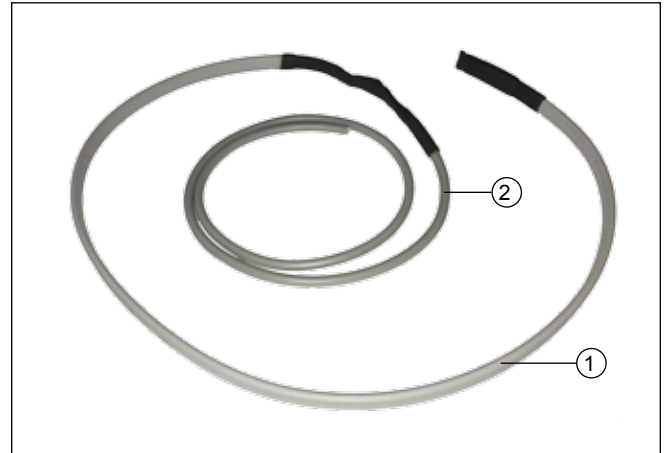

APPLICATION

The Condensate Drain Heater (CDH) is complete and ready to use for freeze protection on condensate drain lines. Since the cable is self regulating, no controlling thermostat is required.

Catalogue	Part Number	Length (metres)
CDH-2-1-OJ	651-1020	1.0
CDH-2-1.5-OJ	651-1030	1.5
CDH-2-2-OJ	651-1100	2.0

NOTES

- * Thermon Condensate drain heaters are suitable for Drains with an ID of 18mm or greater
- * Special lengths can be manufactured upon request
- * ALL electric heat tracing requires an earth leakage device fitted to power source as per AN/NZS3000:2007

CONSTRUCTION

- 1 Self Regulating SX Overjacketed Cable
- 2 3 Core Flex standard 1 metre length
