

PRODUCT DATASHEET **TRACENET™ ECM™-AMBIENT** ELECTRONIC CONTROL MODULE

APPLICATION

The TraceNet ECM-Ambient thermostat is designed to provide ambient sensing control of electric heat tracing circuits for freeze protection of piping and vessels. This thermostat can be used to control a heating circuit or as pilot control of a contactor switching multiple heat tracing circuits ¹. The ECM-Ambient provides energy savings and precise control for heat trace circuits.

The ECM is housed in a glass reinforced nonmetallic enclosure with an environmental protection rating of IP66. Rotary switches are provided for adjusting temperature control and limiter set points. The standard version of the ECM communicates on a physical network of RS485 by using a Mod-bus RTU communication protocol.

The ECM-Ambient is approved for use in both ordinary (non-classified) and hazardous (classified) areas.

RATINGS

Operating/control voltage
120 Vac +10%/-10% (50/60 Hz)
230 Vac +10%/-10% (50/60 Hz)
Operating ambient range60°C to 55°C
Minimum ambient storage range74°C
Control switch type optionsSPST and DPST
Switching current ratings ²
SPST
DPST28/23/17 amps (25°C, 40°C, 55°C)
Alarm output current rating2 A
Electrical connection terminal blocks ³
Adjustable temp. control range 0° to 500°C
Measurement range60° to 500°C
Measurement accuracy (ambient)± 1°C (0°C to
+55°C ambient)
± 2°C (0°C to -60°C ambient)
Ambient temp. sensor(s)100 Ohm three wire Platinum RTD
RTD input circuitryintrinsically safe (EX i)
Life expectancy100,000 cycles

Certificate IECEx SIR 12.0103X Ex eb mb [ib] IIC T4 Gb Ex tb IIIC T135°C Db

Canadian Standards Association Ordinary and hazardous (Classified) Locations

ECM Ambient has additional hazardous approvals including: TRCU, TCCE, INMETRO

CONSTRUCTION

- 1 Junction box, glass-reinforced polymer
- 2 Pipe-mount expediter, glass-reinforced polymer
- 3 Ambient temperature sensor
- 4 Stainless steel mounting bracket

PRODUCT FEATURES

- Encapsulated electronics and control
- One temperature control module for wide range of temperature control
- Energy saving accurate electronic temperature control action
- Data highway communication capability
- Control in degrees Centigrade or degrees Fahrenheit
- Combines power junction box and control module in one unit

Notes

- Standard configuration is pilot control of a contactor switching multiple heat tracing circuits. When the thermostat is used to switch other types of heating cable, please contact Thermon.
- 2. When located outdoors and subject to solar gain, some current de-rating will be required. Contact Thermon for additional information.
- 3. The terminal blocks consist of:
 - (6) 10 mm² line/load/PE terminals
 - (3) 3 mm² comm. port terminals
 (3) 3 mm² alarm relay terminals
 - $(2 \times 3) 2.5 \text{ mm}^2$ sensor terminals
 - See installation instructions for maximum wire size.
- Refer to Form TEP0010U, System Accessories Heat Tracing Cables for additional accessories.
