TubeTrace® Type SI/MI

"LIGHT" STEAM TRACED INSTRUMENT TUBING

APPLICATION

Freeze protection or process temperature maintenance with a tube temperature range: 40°F (5°C) to 250°F (121°C). Designed to provide freeze protection or temperature maintenance for metallic and non-metallic tubing with "light" steam trace, TubeTrace Type SI/MI is suitable for use with process analyzers, emissions analyzers, and impulse lines to flow or pressure transmitters where steam or hot liquid is the preferred heating media.

TubeTrace Type SI/MI "light" steam trace is a metallic tracer tube that is isolated from direct contact with the process tube(s). The tracer tube and process tube(s) benefit from consistent heat transfer and performance along the entire length of the bundle.

Unlike field fabricated and insulated tubing, TubeTrace engineered pre-insulated tubing provides superior weather proofing and long term reliability.

CONSTRUCTION

- 1 Tracer tube [isolated from process tube(s)]
- 2 Heat reflective tape
- 3 Process tube(s)
- 4 Non-hygroscopic glass fiber insulation
- 5 Polymer outer jacket

RATINGS

SI and MI "Light" Trace	Ratings
Available Tracer Tube Diameters	1/4", 3/8" and 1/2"
Available Tracer Tube Materials	Copper and Stainless Steel
Typical Process Tube Temperature	40°F to 250°F (5°C to 121°C)
Maximum Steam Temperature *	400°F/235 psig (205°C/1690 kPa)
Typical Temperature Difference Tracer Tube vs. Process Tube	More Than 100°F (55°C) ⁴

PRODUCT FEATURES

- Consistent heat transfer and thermal performance
- Superior weather proofing
- Long coils minimize waste

Note

* If bundle jacket is to remain below 140°F (60°C) in +80°F (27°C) ambient (in consideration of personnel burn risk) tube temperature must remain below 400°F (205°C). Alternative designs to keep jacket below 140°F (60°C) in higher ambient and/or with higher tube temperatures are available. Contact Thermon.

HOW TO SPECIFY

TubeTrace Type	Process Tube(s) O.D.	Process Tube(s) Material	Number of Process Tube(s)	Tracer Tube O.D.	Tracer Tube Material	Bundle Jacket	Process Tube(s) Wall Thickness	Tracer Tube(s) Wall Thickness
